

## EDGE SERIES

The original design of the EDGE collection harmonizes fantastically with modern interiors maintained in a minimalist style, but will also find its way into classically decorated spaces. In the EDGE design palette you will find pyramidal shapes - both with a sharp and truncated cone, as well as a mesmerizing diamond surface structure.

# PYRAMID

The PYRAMID model is a wooden panel with an equilateral triangle profile and a 3D geometric form in the form of three planes that are refracted at different angles to form an asymmetrical pyramid. The original design and the edges of the solid highlighted on the front of the panel – perfectly fit into modern spaces maintained in a minimalist style.

#### PRODUCT FEATURES:

- panel with an equilateral triangle profile
- no symmetry, the surface is refracted at three different angles
- minimalistic design
- geometric form that perfectly matches any interior
- arrangement in the form of a pattern as well as the entire wall

#### SPECIFICATION:

- thickness: 25mm (0,98in)
- material: engineered plywood + wood
- wood type: oak / American walnut / ash
- finish: Hard Wax Oil / Varnish
- side length: 25cm (9,84in)
- weight: 350g (0.77lb)
- 1m<sup>2</sup> = 10,76ft<sup>2</sup> = 38 pcs.

# DIAMOND

The DIAMOND panel is characterised by a symmetrical three-dimensional form reminiscent of a diamond, i.e. a polished diamond, which is set on an equilateral rhombus plan. The many planes that make up the front of the panel – perfectly disperse sound and refract the light falling on them, creating stunning visual effects. Wall decorations based on DIAMOND panels enhance the spatial effect and exude timeless elegance.

#### PRODUCT FEATURES:

- panel with an equilateral rhombus profile
- geometric diamond-like form
- many surfaces that refract light and disperse sound
- variety of visual effects
- the effect of spaciousness combined with elegance and simplicity

#### SPECIFICATION:

- thickness: 30mm (1,18in)
- material: engineered plywood + wood
- wood type: oak / American walnut / ash
- finish: Hard Wax Oil / Varnish
- side length: 25cm (9,84in)
- weight: 800g (1,76lb)
- 1m<sup>2</sup> = 10,76ft<sup>2</sup> = 19 pcs.

# PILLOW

The PILLOW model is a 3D wooden decor panel set in a square. The spatial front is shaped by five asymmetrical planes, refracted at different angles. The whole creates an irregular, avant-garde geometric solid, resembling an asymmetrical pyramid with a truncated cone. The name of the model is inspired by the visual effect of the so-called "soft cushion", which is obtained when the decoration is mounted on the wall.

T O U C H

#### PRODUCT FEATURES:

- square profile panel
- five asymmetrical planes refracted at different angles
- the effect of soft pillows
- the possibility of arrangement in a checkered layout of grains
- ease of assembly thanks to the perpendicular form

#### SPECIFICATION:

- thickness: 30mm (1,18in)
- material: engineered plywood + wood
- wood type: oak / American walnut / ash
- finish: Hard Wax Oil / Varnish
- side length: 25cm (9,84in)
- weight: 950g (2,09lb)
- 1m<sup>2</sup> = 10,76ft<sup>2</sup> = 16pcs.
