DESIGN PROPOSALS

WELCOME!

Welcome to our design ideas catalog, where creativity meets uniqueness!

We are convinced that each project is unique, full of individual needs and inspirations. **Our concepts are merely initial proposals designed to stimulate your imagination.**

Discover the wealth of possibilities we offer, while understanding that it is just a starting point. In this catalogue, you will find both modern and classic concepts that you can customize to fit your tastes and needs.

Our designers work with passion to create proposals that reflect the diversity of styles and functions. However, it is you who is the main architect of your project. Take control and unleash your creativity.

Get inspired, and create with us a project that reflects your personality and lifestyle.

The following pages showcase imaginative layouts crafted by our team, which can assist you in finding a direction that resonates with your preferences. These designs encompass options that consist solely of 3D panels or incorporate a blend of 2D panels, resulting in unique effects.

Each of these layouts is adaptable to specific wall dimensions and can be modified according to your preferences.

Recognizing the individuality of each project,
we prioritize flexibility to provide you with the freedom to express yourself fully.

DIDN'T FIND WHAT YOU NEED? NO WORRIES - WE'VE GOT YOUR BACK.

You want the panels to match the flooring/
ceiling/furniture perfectly?

Bespoke finish is here for you.

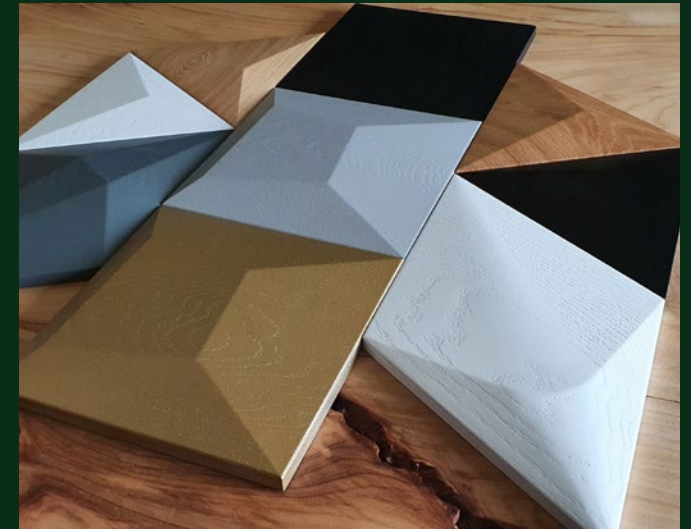

Share the specific details of the decorative oil, and we'll apply it to finish the panels. Provide a section of the flooring or furniture, and we'll make every effort to find and match the exact hue. If you prefer to finish the panels yourself, you can order raw, sanded panels that are ready for finishing.

You're seeking bold, vibrant colors that
make a powerful statement?

Choose varnishing!

With a full RAL palette at your disposal, we can create panels that precisely align with your preferences and interior aesthetics. Even when completely covered in the selected varnish color, the panels still enable you to admire the unique texture of the natural wood grain.

WHAT'S NEXT?

You like a particular motif, but are worried about whether it will look good on your wall? **Relax - this is just the beginning.**

Our team of inhouse designers waits for you to work on YOUR wall. Provide us with some photos/drawings of the designated wall along with the dimensions, and we will prepare your personalized project.

From fitting the design to the dimensions, to counting the exact number of panels needed, to providing installation instructions with all the necessary details - we are here to provide you with a full design service.

None of those motifs grabbed you? You are always thinking outside the box and want our panels to follow that? We love to hear that.

Whether you need something unique to stand out, match the specifics of the interior, highlight your company's logo, or use our panels as a small decoration, we're happy to take on the challenge. When we say our panels have no limits, we mean it, and we'll do everything in our power to prove it!

We would love to take this journey with you and create your own FORM AT WOOD project!

GET YOUR SAMPLE

Selecting the perfect wood and color for your project is a personal journey, and we want to make it as immersive as possible. Knowing how important this decision is, we offer you the opportunity to order a physical sample. This allows you to touch, feel, and truly experience the product and color before making your final decision.

order a sample at: contact@formatwood.com
